

Claims

=====

5 1. A plaster with a base layer (10), optionally with a working layer (20) arranged on said base layer on said base layer and with an adhesive layer (12), characterised in that the external surface of the base layer (10) remote from the adhesive layer (12) is formed in such a way that it accepts a cosmetic preparation.

10

2. Plaster according to Claim 1, characterised in that the external surface (14) is rough.

15 3. Plaster according to Claim 1 ~~or 2~~, characterised in that "the external surface (14)" has been given a surface treatment or a surface coating (16) so that it is either lipophilic or hydrophilic.

20 4. Plaster according to ^{Claim 1} ~~one of Claims 1 to 3~~, characterised in that the external surface (14) exhibits an imprint (28) with a skin pattern.

25 5. Plaster according to ^{Claim 1} ~~one of Claims 1 to 4~~, characterised in that the working layer (20) comprises at least one microencapsulated (22) active substance (26).

30 6. Plaster according to Claim 5, characterised in that the active substances (26) comprise one or more of the substances named below: drying agents such as kieselguhr, aluminium oxide and the like, pharmaceutical substances such as, for example, pharmaceuticals acting on the skin, e.g. anti-inflammatory pharmaceuticals, pharmaceutical substances which are supplied to the body percutaneously, and skin-care products, e.g. soothing oils.

35

7. Plaster according to one of Claims 1 to 6,
characterised in that the base layer (10) bears a
printing-ink layer (30).

5 8. Plaster according to Claim 7, characterised in that
the printing-ink layer (3) is situated between the
base layer (10), which is made out of transparent material,
and the adhesive layer (12).

10 9. Plaster according to ^{claim 7} ~~one of Claims 1 to 8~~,
characterised in that the base layer (10) is made out
of rubber.

10. Plaster according to ^{claim 7} ~~one of Claims 1 to 9~~,
15 characterised in that the thickness of the base layer
(10) amounts to between 20 and 100 μm , preferably between
30 and 60 μm .

11. Plaster according to ^{claim 7} ~~one of Claims 1 to 11~~,
20 characterised in that the adhesive layer (12) consists
of an adhesive that cures after application of the plaster
on the skin.

12. Plaster according to ^{claim 1} ~~one of Claims 1 to 10~~,
25 characterised in that the adhesive layer (12) is made
out of a constantly tacky material so that the plaster is
capable of being pulled off from the backing, in particular
from a plaster located underneath which is likewise formed
in accordance with one of Claims 1 to 10.

30 13. A set consisting of at least one plaster according to ^{claim 8} ~~one of Claims 8 to 12~~ and a coloured cosmetic
preparation, characterised in that the printing-ink layer
(30) and the cosmetic preparation have the same colour.

14. A set consisting of at least one plaster according to ~~claim~~
~~1 one of Claims 1 to 12~~, characterised in that it
comprises a plurality of plasters of varying size, which
have been punched out of a planar material.
